

CHURN™

High Power Cleaner for Ovens, Grills, Fryers & Hoods

Dissolves the toughest deposits of built-up grease and carbon. Designed for use on smokehouse walls, floors and racks. Also an outstanding detergent for fryers, grills, stoves, exhaust fans, hoods, filters and barbecues. Fortified with a powerful blend of alkalis and surfactants for unsurpassed penetration and removal of stubborn soils. Non-fuming and non-flammable. Not recommended for use on aluminum, tin, pewter or other non-ferrous or galvanized metals. Highly concentrated and economical to use.

Directions for Use

Ovens and Grills: Scrape heavy food deposits from surface to be cleaned. Heat oven or grill to about 130°F--do not heat above 160°F as violent splattering may occur. Dilute up to 3:1 (32 oz./gal.) with warm water. Apply liberally to surface and allow several minutes contact time to penetrate soils. Scrub with a rag, sponge or brush. Use a non-abrasive pad for stubborn soil deposits. Flush surface with vinegar or mild acid solution to neutralize alkalinity, then rinse completely with clean water.

Deep Fat Fryers: Drain oil and remove food debris. Fill with water to grease line, then add 8-12 ounces of this product. Bring to a low boil for 15-20 minutes, then allow to cool. Drain fryer, scrub any remaining food deposits, neutralize with vinegar or a mild acid solution, then drain and rinse with water.

Smoke Houses: Use Churn at full strength or diluted up to 3:1 (32 oz./gal.) with warm water. Apply solution liberally to surfaces to be cleaned, then allow at least 1 hour contact time to penetrate and loosen soils. Agitate surfaces with scrub brushes to improve soil penetration and removal. Flush surface with vinegar or mild acid solution to neutralize alkalinity, then rinse completely with clean water.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com

Technical Specifications

Appearance	Brown Liquid
Odor	Characteristic
pH (1% solution, 22°C)	>11.5
Foaming	Moderate
Flash Point	None
Bulk Density (lbs/gal, 22°C)	12.73 ±0.1
Stability Range	60-100°F
Free Alkalinity (as Na ₂ O)	Very High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	None
USDA Rating	A8

Product Number

17041
17055

Packaging

4x1 gal. case
55 gal. drum
