

HARDCHLOR™

Heavy Duty Chlorinated Machine Dish Detergent

A high quality detergent for use in high or low temperature dishmachines. Heavily fortified with alkaline builders, soil emulsifiers, water conditioning and anti-redeposition agents plus special destaining ingredients for unsurpassed results on glassware, silverware, coffee cups, etc. Ideal for use in medium soft water accounts. Not recommended for use on aluminum cookware and other surfaces made of non-ferrous metal.

Directions for Use

This product is designed to be used in mechanical dishwashing machines. For best results and safest use, this product should be dispensed with equipment installed and/or approved by your Service Representative, who will determine the correct concentration based on your operating conditions. Good dishwashing requires proper water temperatures, correct procedures, proper chemical injection and mechanical action by the dish machine. Your Service Representative will review these requirements during regular service calls. **For machine use only--not for manual dishwashing.**

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from www.crown-chem.com.
