

STAINBLAST™

High Performance Reclaim for White and Colorfast Fabric

A super-strength stain remover formulated to reclaim soiled, graying or dingy white or colorfast linens, towels and other fabrics. For use directly in the laundry machine in commercial and institutional applications. Effective on a wide variety of stains not removed by regular washing, including grease, cooking oils, food stains, cosmetics, grass, and much more. Contains powerful alkalis, water conditioning agents and chlorine additives for outstanding results, even in hard water areas with high soil loads.

Directions for Use

For use in commercial laundry machines on white or colorfast fabric only. Consult your Service Representative for proper procedures and wash formula instructions before use. Place linen to be reclaimed into washer, then fill machine to a low level with hot water. Add 1-2 lbs. of this product (½ to 1 container) per 50 lbs. of linen. Do not exceed this concentration. Mix this product only with water - NEVER with other chemicals. Wash for 10-20 minutes, drain machine, then rinse and extract linen three times (two hot water, then one warm water). Inadequate rinsing may cause damage to fabric and skin irritation. Assure fabric pH is 7.0 or lower. If it is higher, add another rinse step. Dry as usual. Close container when not in use.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	White Powder
Odor	Chlorine
pH (1% solution, 22°C)	>11.5
Foaming	Low
Flash Point	None
Bulk Density (lbs/gal, 22°C)	9.00 ±0.1
Stability Range	20-100°F
Free Alkalinity (as Na ₂ O)	High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content (as P)	<4.0%
Chlorine Content	>8.0%

Product Number

21725

Packaging

25x2 lb. case
