TIRESOLVE™

High-Performance Automatic Tire and Wheel Cleaner for Friction and Touchless Car Washes

A high-performance alkaline tire and wheel cleaner for use in automatic car washes. Dissolves road film and soil buildup quickly and completely on porous rubber surfaces and metal rims. Produces abundant foam for increased contact time on vertical surfaces and improved cleaning performance. Contains a special blend of solvents, alkalis and surfactants in addition to special additives for rapid soil penetration and emulsifying. Ideal for use in automatic, touchless and self-serve car washes, or with portable pressure washing equipment.

Directions for Use

For use in automatic in-line spray on/rinse off car wash operations only. Not for manual cleaning of tires. For most car washes, apply this product at a dilution ratio of 10:1 - 20:1 (approximately 6-12 ounces per gallon of water). Solution strength may be adjusted to meet individual circumstances. Consult equipment manufacturer's directions for usage procedures. Follow application of this product promptly with scrubbing and thorough rinsing. Do not allow detergent or solutions to dry on wheels. Not recommended for extended dwell time on aluminum or magnesium rims.

Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's may be downloaded from www.crown-chem.com.

Technical Specifications

Appearance	Yellow-Green Liquid
Odor	Characteristic
pH (1% solution, 22°C)	>11.5
Foaming	High
Flash Point	None
Bulk Density (lbs/gal, 22°C)	8.87±0.1
Stability Range	50-100°F
Free Alkalinity (as Na ₂ O)	Very High
Solubility (in H ₂ O, 22°C)	100%
Phosphate Content	None

Product Number

86005
86015
86030
86055

Packaging

5 gal. pail
15 gal. drum
30 gal. drum
55 gal. drum
