

# ULTRABLAST™

## High Power Laundry Reclaim for Rust Stains and Graying Fabric

A super-strength stain remover formulated to reclaim soiled, graying or dingy linens, towels and other white or colored fabrics. For use directly in the laundry machine in commercial and institutional applications. Ideal for linen which has become gray, dull or stained due to iron or hard water residue in the wash bath. Reduces linen and towel cost by brightening and reclaiming previously unusable fabric, thus reducing discarded material. Contains a powerful acidic ingredient which effectively brightens even badly stained linen. An essential product for a quality laundry program, especially in hard water areas.

### Directions for Use

For use in commercial laundry machines only. Consult your Service Representative for proper procedures and wash formula instructions before use. Place linen to be reclaimed into washer, then fill machine to a low level with hot water. Add 1-2 lbs. of this product (½ to 1 container) per 50 lbs. of linen. Do not exceed this concentration. Mix this product only with water - NEVER with other chemicals. Wash for 10-20 minutes, drain machine, then rinse and extract linen three times (two hot water, then one warm water). Inadequate rinsing may cause damage to fabric and skin irritation. Assure fabric pH is 7.0 or lower. If it is not, add another rinse step. Dry as usual. Close container when not in use.

### Safety Reminder

Consult product label and Safety Data Sheet (SDS) before use. SDS's can be downloaded from [www.crown-chem.com](http://www.crown-chem.com).

### Technical Specifications

Appearance	White Powder
Odor	Characteristic
pH (1% solution, 22°C)	<2.0
Foaming	None
Flash Point	NA
Bulk Density (lbs/gal, 22°C)	9.00 ±0.1
Stability Range	30-100°F
Free Alkalinity (as Na <sub>2</sub> O)	None
Solubility (in H <sub>2</sub> O, 22°C)	100%
Phosphate Content (as P)	None

**Product Number**  
22012

**Packaging**  
6x2 lb. case
